PROJECTS

TrimTime – Online Salon Booking Platform (under development)

11/2025 - Present

https://anubhab0709.github.io/trimtime/

https://trimtime-salon-dt5i.vercel.app/

- **TrimTime – Online Salon Booking :** A full-stack web application where users can book salon services with live slot availability, while salon owners manage schedules and services via an admin dashboard. Features responsive UI, optimized booking logic, and secure authentication.
- Test creds (User & Client): **ID:** 9999999999 · **Password:** 123

PharmaCare Tracking Web App

10/2025 - 11/2025

URL

PharmaCare is a web application designed to manage pharmacy inventory with real-time stock tracking, low-stock alerts, expiry monitoring, and efficient medicine management through a simple, user-friendly interface.

Fake Video Detection

09/2024 - Present

https://github.com/anubhab0709/fakevideo.github.io

A project focused on fake video detection using advanced technology

- Developed the front-end from scratch with a responsive and intuitive UI, and collaborated on the backend architecture integrating computer vision and neural networks. The deepfake detection system is **under development**, as we refine and improve model accuracy while overcoming challenges in training.

My Portfolio

01/2024 - 03/2024

itsanubhab.com

A personal portfolio project showcasing graphic design and web development skills

- Created a portfolio project from scratch, implementing an artistic design
- Merged graphic design skills with front-end development to build a visually appealing portfolio
